DELIVERY

For delivery of your exhibition materials, please use the entrance at Schackstraße (see map). The loading and unloading zone can be reached via the western side entrances of the Niedersachsenhalle (dimensions of gates: w 2,98 m x h 2,26 m). Please use the general access road of the HCC car parks.

The entrance to the exhibition grounds is being sectioned off by a barrier. Please choose the option „Lieferantenticket“ (ticket for distributors). With this ticket, you can leave the premises within 3 hours without a previous validation. If you need to remain longer on the premises, you need to have your ticket validated by the technical supervisory staff of the HCC (this is only possible during the mounting/dismounting times). Please also note, that the loading areas are not at grade with the hall level, but are separated with few stairs suited well for trucks with a tail lift to reach the exhibition area. Vehicles without a tail lift can alternatively use the access from the foyer of the Glashalle.

After completion of delivery, the vehicles must be removed immediately and may only be parked on the designated parking areas.

PARKING

The entrance to the **car park** of HCC is located at Schackstraße (see map).

The car park is open 24/7. The day rate for cars is 3,50 € and for larger vehicles, 12 €.

For vehicles that exceed the maximum height of 2,20 m, designated parking spaces are available at the premises (gravel areas, instructions are given by HCC personnel).

The use of these gravel areas can only take place after prior approval by the HCC, therefore the need must be announced in advance via the organizer at the HCC well in advance.
